amaze

A Whole New Way to Ask, Understand, and Act

From group pace to at-risk accounts, ask Amaze what's happening, why, and what to do next.

AI Moves Fast. Amaze Keeps You Ahead.

As AI advances, Amaze Intelligence brings the latest hospitality innovations directly to your hotel, so you can stay ahead without having to keep up.

KNOW WHERE TO START

Guided questions and pinned reports help you find answers, even when you're not sure what to ask.

GET ANSWERS THAT GO DEEPER

Ask why group pace is down, which accounts need attention, or what's driving a revenue gap.

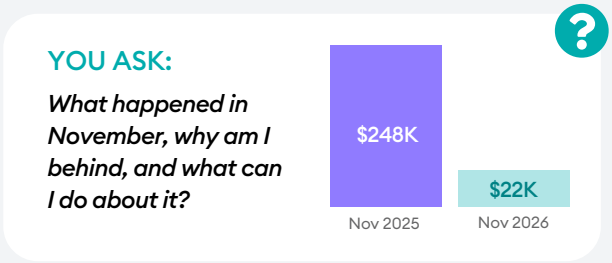

TURN QUESTIONS INTO REPORTS

Create custom dashboards, charts, and visualizations simply by asking.

TURN INSIGHTS INTO ACTION

Get the insights you need to make smarter decisions, backed by your hotel's data and Amaze's hospitality expertise.

Real Business Answers. From Your Actual Data.

Amaze Answers...

WHY YOU'RE BEHIND

- Last year's anchor group didn't return.
- A $57K group booking is stuck in prospect.
- A definite $47K group booking was canceled.

WHAT TO DO

- **Close the pending $57K booking.**
- **Reconnect** with the former anchor group.
- **Pursue short-lead business** ($62K booked late last year from weddings and social groups).
- **Use a need-date rate** (two November groups were lost on price last year).

Your Intelligence. Your Way.

Different ways to connect. The same Amaze Intelligence.

WITHIN AMAZE

Ask questions, explore reports, and create visualizations directly in the Amaze platform.

THROUGH YOUR PREFERRED AI

Connect through compatible tools like ChatGPT, Claude, or your company's internal AI.

Your Data Stays Yours.

SECURITY & CONTROL
Protected by the access controls and security standards you approve.

ROLE-BASED ACCESS
Users see only the properties and data their role allows.

DATA PRIVACY
Your data is never used to train public cloud AI models.

FULL TRANSPARENCY
IT can see what's being queried and who's using it.

As AI Evolves, So Does Amaze.

You don't need to chase the next big thing in AI. Amaze brings the latest AI capabilities directly into the platform you already know and trust.
